

PROGRAM OVERVIEW

The Exhibition Services & Contractors Association (ESCA) has developed a national Worker Identification System Program, called ESCA Badge, that allows entry into participating facilities by the contractor’s workers who have been registered with the Program.

OVERVIEW

ESCA maintains a complete database of all workers in a web-based program that is available to venue management and contractors 24/7.

The database is kept secure and accurate with real-time updates and monitoring. Approved administrators can register new workers and renew existing records through the web-based portal.

PHOTO IDENTIFICATION BADGES

*badge life is three (3) calendar years

ESCA Members	\$22.00
All Others	\$30.00

TEMPORARY ACCESS BADGES

*badge life is one (1) calendar year

ESCA Members	\$15.00
All Others	\$20.00

We are there to assist and evolve with you

The objectives of the program are to (1) provide a national database of workers approved by contractors, (2) reduce redundant administration costs arising from the repeated issuance of credentials (3) dramatically increase the speed of approving entrance to the building by workers, and (4) to enhance venue security on one of three levels...

- Atlantic City Convention Center
- Baltimore Convention Center
- Boston Convention & Exhibition Center
- Charlotte Convention Center
- Duke Energy Convention Center
- Ernest N. Morial Convention Center
- Gaylord Opryland Resort & Convention Center

<i>Security Levels</i>	4.1	4.2	4.3
Visual Identification confirmation that badge is current, and company has passed basic application process.	✓	✓	✓
Provides a daily log of all workers entering and exiting with time stamp verification.		✓	✓
Logs maintained online for 24/7 access.		✓	✓
Advance LaborCall Technology.			✓
Only workers whose ID has been sent in advance as being on the "call list" are allowed access when their badges are scanned, and only on the days they are scheduled by contractors.			✓

Ric Booth
General Manager
Duke Energy Convention Center

"Safety and security are a primary focus at the DECC and the ESCA Badge Program has played an important role in our everyday efforts. In our 6th year of utilizing the program, approximately 95% of contractors visiting our facility have an ESCA badge. Having the ability to **monitor who enters and exits** our facility is a key component to providing a safe environment. In addition, this Program has allowed for improved efficiency in our dock operations and increased productivity for both the facility and visiting contractors. By utilizing the ESCA Badge program, we can be confident in providing a top notch guest experience for everyone."

Luther Villagomez
Chief Operating Officer
George R. Brown Convention Center

"Our ability to identify workers in the facility has improved tremendously since adopting the ESCA Badge Program in 2012 at the George R. Brown Convention Center. **The ESCA Badge Program has enhanced the security** efficiency for our venue and filled a void for both our event and building **security**. Our security personnel and show organizers have become accustomed to the reliability of identifying the proper personnel at each event. Use of the program improves our security system into the future and we will continue to find opportunities to work with ESCA to improve the technology."

Freddie Peterson
General Manager
Miami Beach Convention Center

"Here at the Miami Beach Convention Center, the health, safety, and security for all who enter our venue and campus is one of our top priorities. We are proud and enjoy a wonderful partnership with ESCA and their ESCA Badge - Worker Identification System (WIS). Not only has it provided a **critical and additional layer of safety and security**, but we were able to **increase efficiency and productivity** when it came to accessing our 1.4 million square feet of convention, ballroom, and meeting spaces."
